**LOGIN**

EMAIL ADDRESS

PASSWORD  
> Forgot your password?

Nutzungsbedingungen  
Datenschutzerklärung

(\*) Pflichtfelder

Now you will be redirected to the following site:

**WITTE DIGITAL**  
beyond mobility

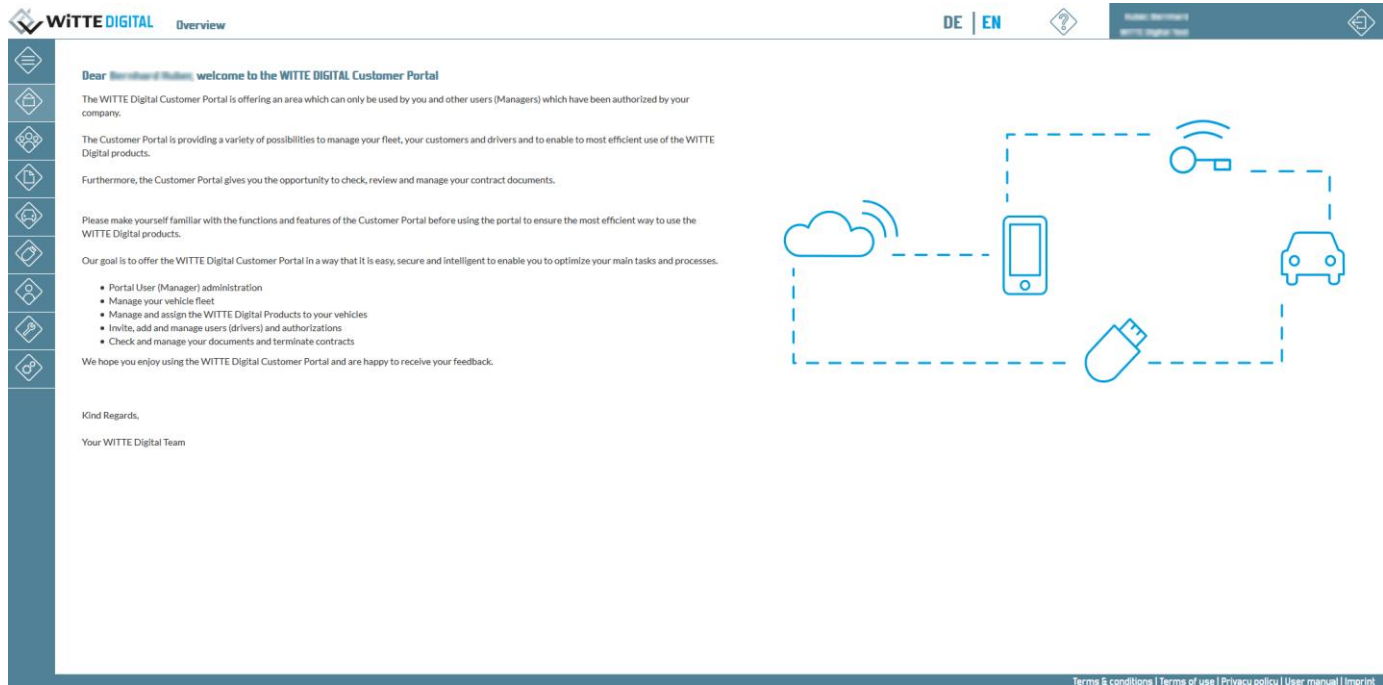

**Select customer**

☐ WITTE Digital Test

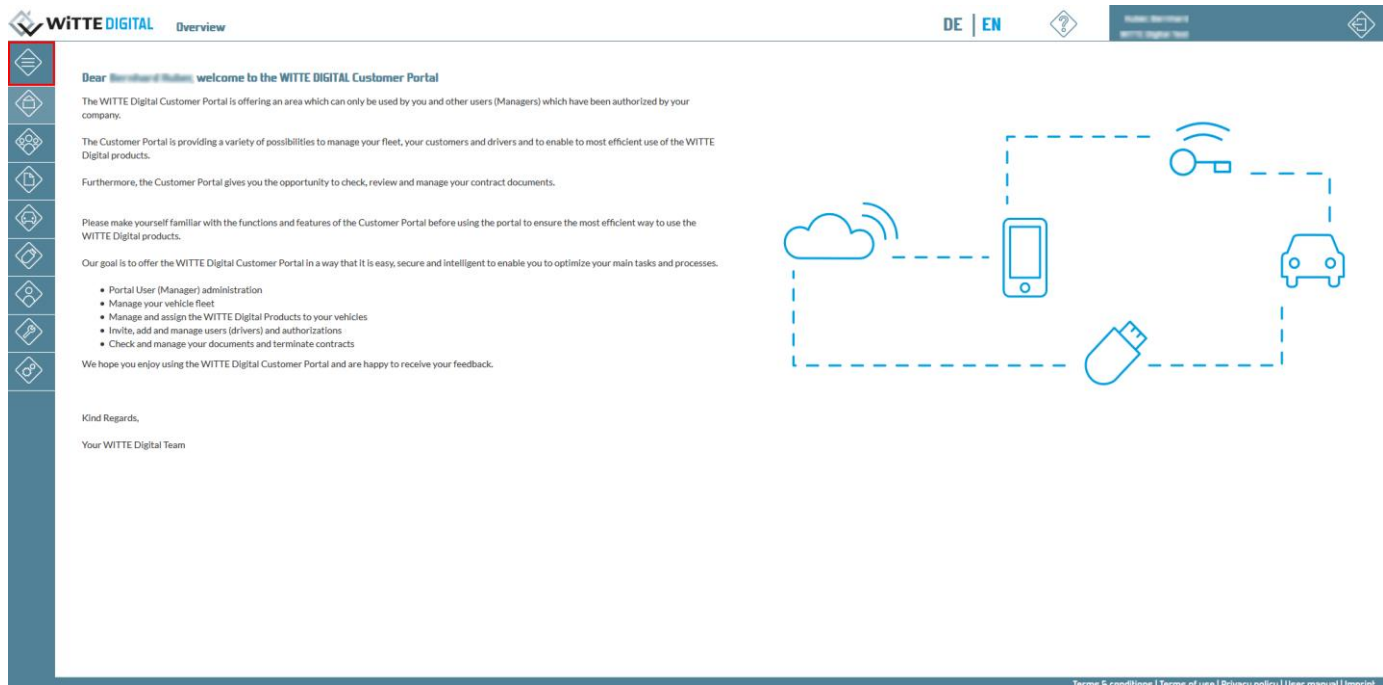

☐ WITTE Automotive GmbH

Please select the customer you will use our SDK for.

Now you can see the following site:

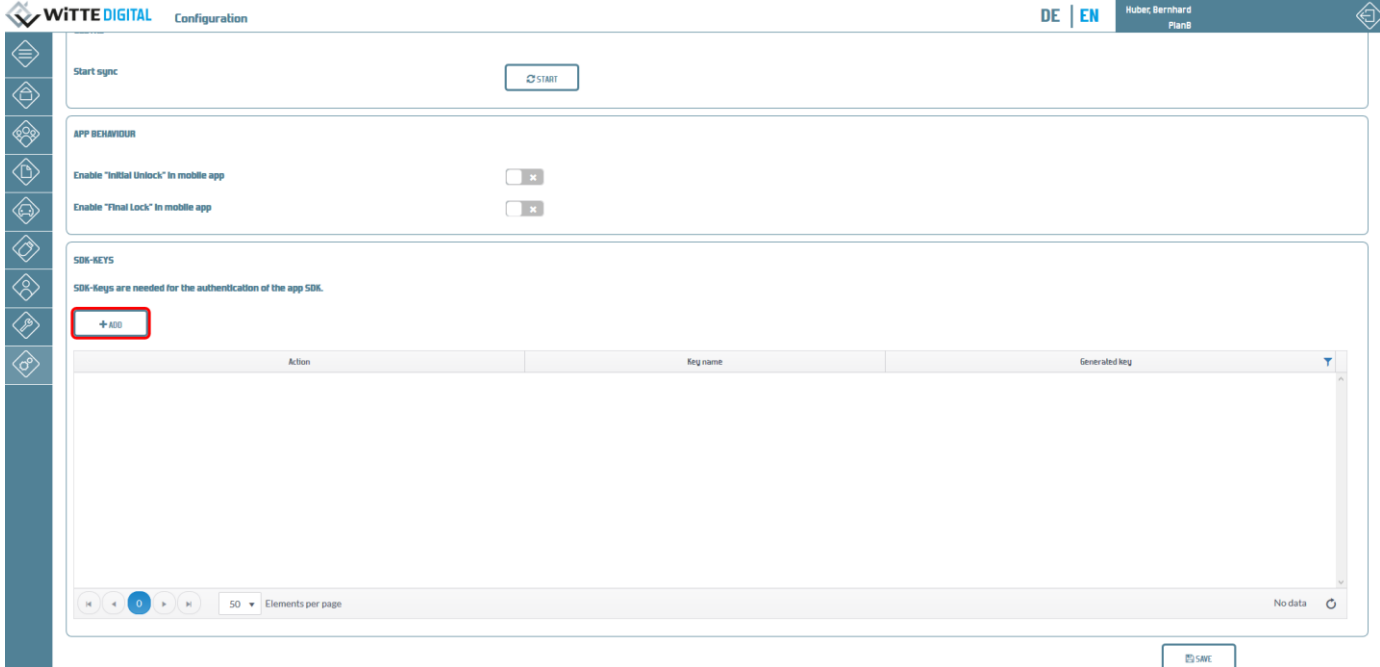

This is the landing page of WITTE Digital's customer portal you are currently logged in to. Expand the menu:

Please navigate to the site "CONFIGURATION".

Now you will be redirected to the site "CONFIGURATION". Please scroll to the end of the page.

WITTE DIGITAL Configuration DE | EN Huber, Bernhard PlanB

Start sync START

APP BEHAVIOUR

Enable "Initial Unlock" in mobile app ☐

Enable "Final Lock" in mobile app ☐

SDK-KEYS

SDK-Keys are needed for the authentication of the app SDK.

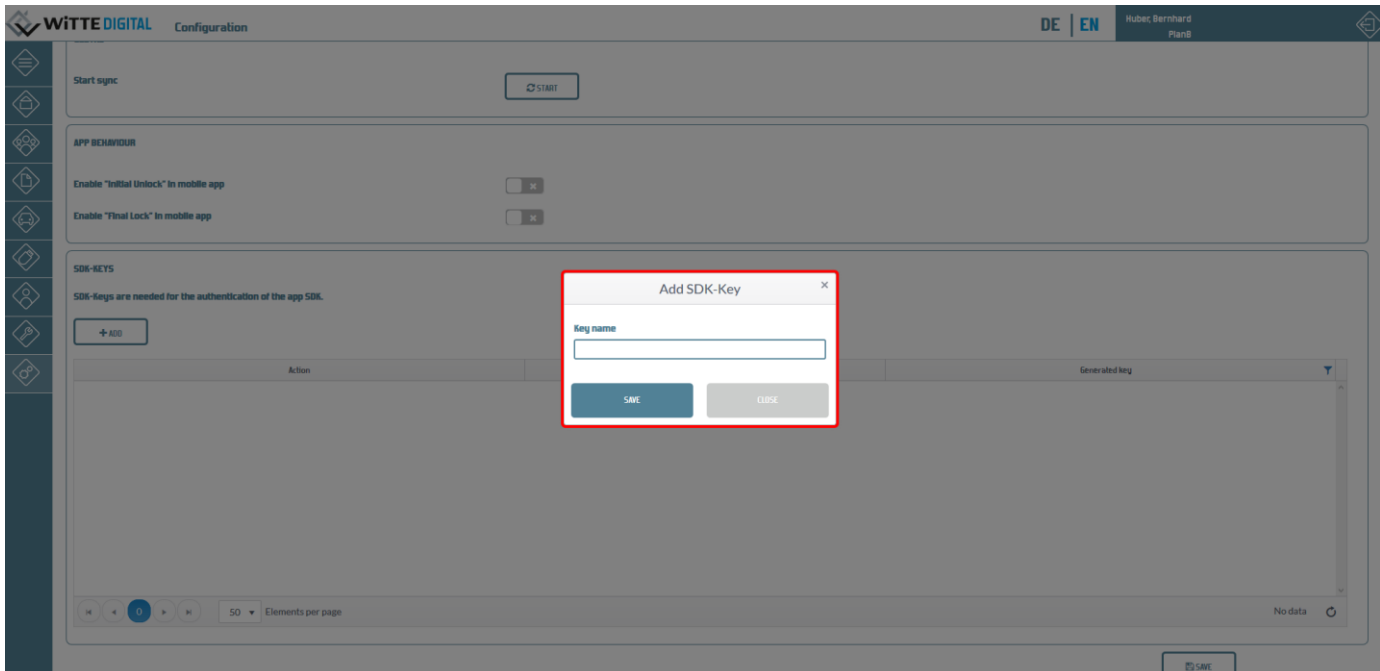

+ ADD

Action	Key name	Generated key
--------	----------	---------------

50 Elements per page No data

SAVE

Please click on the button "ADD".

The "Add SDK-Key" dialog is visible now.

1. Please fill in the field “Key name” with a key’s name of your choice. The names of the keys won’t matter later. But they could be useful for you to see who uses which key based on the keys’ names.

2. Please click on the button “SAVE”.

You’ve successfully created your first SDK key.
